YOUR DODGE CERTIFIED COLLISION REPAIR FACILITY... IS CROSSTOWN AUTO BODY.

There are many things to consider when getting your Dodge repaired. Is the shop certified? Is the technician qualified? Do they use authentic Dodge Mopar parts? Will they get my vehicle back to its pre-accident condition? When you use a Dodge Certified Collision Repair Facility, the answer is yes to all of the above.

TRUST US TO MAKE IT EASY FOR YOU

We will make estimating and insurance approvals anxiety-free. For fast approvals, we will communicate proactively with your insurer by transmitting images and information digitally along with working with your adjuster directly to get you back on the road quickly and efficiently.

DESIGNED TO FIT

Generic aftermarket parts often can't match Mopar's precision. In fact, studies show that generic parts deviate considerably in their accuracy of fit, due to dimensional variance, and that as many as four out of five non-OEM (Original Equipment Manufacturer) aftermarket crash parts are inferior to OEM parts.*

They're the same parts and components used at the factory to build your vehicle. It's a difference you can see:

- ✓ They install with a precise, good-as-new fit.
- ✓ Eliminate odd gaps, mismatched or slightly "off" alignments.
- ✓ Utilize the same quality materials, paints and coatings to match your vehicle.
- ✓ Maintain the same level of corrosion protection as your vehicle did when it was new.

*Based on the Crash Part Certification Study by the Department of Consumer Affairs and Bureau of Automotive Repair (BAR), in consultation with the California Department of Insurance.

KEEPING YOUR VEHICLE LIKE NEW

Keeping your vehicle “like new” helps ensure you’ll get the greatest return on your investment at the time of resale. Also, if you lease your vehicle, you’ll be expected to return it “up to standard,” otherwise, you may be required to pay additional termination charges. Authentic Collision Repair Parts by Mopar help protect you and your investment, and help minimize the possibility that your vehicle will lose some of its value unnecessarily.

QUICK AND CORRECT. DELIVERED WITH A LIMITED LIFETIME WARRANTY.

We practice a “fix it right the first time” philosophy. Using our advanced production system, accompanied by state-of-the-art equipment and factory-trained technicians, we will repair your vehicle back to showroom-like condition.

We guarantee that all repairs carried out on your vehicle will meet or exceed industry standards and we always strive to deliver 100% satisfaction. We stand behind our workmanship with a limited lifetime warranty on all repairs performed. In addition, parts are subject to manufacturer’s warranty if applicable.

**It’s your right
to choose where your
vehicle is repaired.**

Drive or have your vehicle
towed to the experts at

DODGE
CERTIFIED
COLLISION REPAIR

to restore your vehicle to
its original factory standards.

Our fully equipped collision repair shops can handle your auto body repair needs. We operate closely with insurance companies to ensure that your vehicle returns to a like-new state quickly. The paint shop works tirelessly to match all colours and trims, yielding a factory-quality finish. From a mild fender bender to a more serious car crash, no one likes a car accident. Allow our trained professionals to complete your automobile restoration to manufacturer-specified standards.

WHY CHOOSE AN AUTOCANADA COLLISION CENTRE?

In the unfortunate event of an accident, trust an AutoCanada Collision Centre to take the utmost care in repairing your vehicle. With several locations and our vast coast-to-coast network of dealers, we can expedite repairs so your vehicle is returned as good as new in no time to the highest level in accordance with modern industry & OEM standards.

We know every manufacturer builds its vehicles differently. Our goal at AutoCanada Collision is to repair your vehicle back to the way it was built, the way it was meant to be.

Valet & Car Rental

Our highly skilled certified technicians are I-Car Professionals who take pride in their work and are continually upgrading their education and training to ensure they execute the highest quality repairs.

Membership in professional trade associations indicate that our facility is keeping up with the latest repair techniques and procedures.

DETAILED & RESPONSIBLE CARE

We are proud to host environmentally friendly waterborne paint technology at all our collision centres instead of using materials containing harsh chemicals. Our certified technicians offer consistent, professional and accurate auto repair services using environmentally friendly practices in order to better serve your vehicle and the community.

WHAT TO DO IN THE EVENT OF A COLLISION

First ask:

1. Is someone injured?
2. Do you suspect the driver is impaired?

If you can say yes to either question, call 9-1-1 and keep the vehicles where they are.

1. Are all vehicles involved still drivable?
2. Do all drivers involved have proper documents?

If you can say yes to both questions, police do not need to attend the scene. After all information has been given, attend a police station to file your collision report.

If you can say no to either question, please call 780-423-4567 (or #377 from your mobile phone) for police to attend the scene.

If the combined damage to all vehicles involved is over \$2,000, you must attend a police station with your vehicle and file a Collision Report Form. Failure to do so could result in a fine. Please have all documents with you when you attend a station: licence, registration, insurance, other driver's information, photos, etc.

If you have any questions, or are unsure of what to do, call 780-423-4567 (#377 from a mobile).

Next, exchange information with the driver(s) involved

We do not suggest that you move your vehicle before exchanging information.

Information to collect*:

- ✓ Name
- ✓ Insurance
- ✓ Registration
- ✓ Driver's Licence number
- ✓ License Plate

If possible, find out which station the other driver(s) will attend to file their report. This will assist the EPS when filing your report.

If there are witnesses, obtain their names and contact information.

**If you have a camera phone, take photos of these items and of the scene if it's safe to do so.*

A collision must be reported if...
Damage exceeds \$2,000, there are any injuries, or a criminal offence occurred (impaired driving, hit and run etc.)

These pages are for personal use and contain information you may need with your insurance company or if reporting the occurrence to the Police.

GLASS & WINDSHIELD REPAIR

At some point in your vehicle's lifetime you may require glass or windshield repair or replacement. Your vehicle's glass and windshields can become cracked, chipped, or scratched in the course of daily use. Windshields will also deteriorate over time due to factors like the sun, dirty windshield wipers and general debris from the road.

Our glass repair services include:

- ✓ Front & rear windshield repairs
- ✓ Windshield replacement
- ✓ Safety system recalibration
- ✓ Car window & power window repairs
- ✓ Competitive pricing & insurance claims assistance (if required)

Whether you require a simple glass repair, or a full windshield replacement our specialist team of auto glass technicians are here to help.

TOTAL LOSS COVERAGE

Total Loss Savings, Compliments of AutoCanada Collision Centres.
